

**WALK TO END POLIO**  
**Saturday, March 20, 2010**  
**Ala Moana Beach Park – Magic Island**  
**Check in starts @ 7: a.m. \*\* Walk start time: 8:00 a.m.**

**WHAT IS POLIO?**

- A crippling and potentially fatal infectious disease, **polio still strikes children, mainly under the age of five**, in countries in Asia, Africa and the Middle East.
- Polio **can cause paralysis within hours** and sometimes death. Polio paralysis is almost always irreversible.
- **There is no cure for polio** - the best protection is prevention.
- For as little as \$0.60 worth of vaccine, a child can be protected against this crippling disease for life.
- Polio has been the world’s greatest cause of disability. If polio isn’t eradicated, the world will continue to live under the threat of the disease. **More than 10 million children will be paralyzed in the next 40 years** if the world fails to capitalize on its \$4 billion global investment in eradication made so far.

With the efforts of Rotary International and its partners, the number of polio cases has been slashed by more than 99 percent, preventing five million instances of childhood paralysis and 250,000 deaths.

**Come out for a fun morning at Ala Moana Park for a 1.5 mile walk and support a global cause. Be a part of this historic effort. If we can eradicate polio, we will mark the second time in history that mankind has completely eliminated a disease. Ala Moana park rules apply- No alcoholic beverages, pets or roller- blading.**

**Help to End Polio Now!! TWO WAYS TO REGISTER**
